⬈ Building Scalable, **High-Performance** Software Solutions

Who we are

EPWERY is a technology company with over **20 years of experience in software** development. We don't just build applications—we engineer **scalable, efficient, and future-proof solutions** by leveraging our deep expertise in software architecture, cloud computing, and data integrity.

We understand that every technology decision comes with trade-offs. That's why we guide our clients in choosing the right approach for their business needs, whether it's:

- **Microservices vs. Monolithic Architectures**
  Balancing flexibility, scalability, and complexity

- **Serverless vs. Traditional Hosting**
  Optimizing cost, performance, and maintainability

- **Cloud Strategies (AWS, Azure, GCP)**
  Selecting the best infrastructure for scalability and reliability

- **Database Design & Optimization**
  Ensuring data integrity, performance, and scalability

Our team has extensive experience across **backend, frontend, cloud, and mobile technologies,** allowing us to deliver solutions that are not only functional but also **highly performant, secure, and easy to maintain.**

Our **Full Stack Capabilities**

Web Application Development

BANKEND DEVELOPMENT

Go, Java, Python, Node.js and more

FRONTEND DEVELOPMENT

React, Next.js, Vue.js

DATABASE MANAGEMENT

PostgreSQL, MySQL, MongoDB, Redis, Elasticsearch

DEVOPS & CLOUD

AWS, Azure, GCP, Kubernetes, Terraform

SECURITY & COMPLIANCE

End-to-end encryption, OAuth, JWT, SOC2 compliance

Mobile Application Development

We build **feature-rich, cross-platform, and native mobile applications** for iOS and Android.

Native Development
Swift (iOS), Kotlin (Android)

Backend for Mobile
Scalable APIs, GraphQL, Firebase integration

Cross-Platform Solutions
Flutter, React Native

Performance & Security
Optimized UI rendering, data caching, secure authentication

Our mobile apps provide **seamless user experiences** while ensuring **top-tier performance and security.**

Systems Integration & API Development

Modern applications require seamless integration with third-party services, legacy systems, and cloud platforms. We specialize in:

- **REST & GraphQL API Development**

- **ERP, CRM, and Payment Gateway Integrations**

- **Secure Authentication (OAuth, SAML, OpenID)**

- **Data Synchronization & Event-Driven Architectures (Kafka, RabbitMQ, WebSockets)**

With a deep understanding of **data integrity, consistency, and performance,** we ensure that all integrations work flawlessly within your technology ecosystem.

Industries We Serve

Our Full Stack Web & Mobile Development expertise spans across

FinTech & Payment Processing
Secure and scalable financial platforms

eCommerce & Marketplaces
High-performance online platforms

EdTech & Learning
Scalable education technology solutions

Real Estate & PropTech
Smart property management platforms

Healthcare & Pharma
HIPAA-compliant applications and medical data solutions

Success Story: **Ansel Health**

One of our standout projects was the **end-to-end development of a Supplemental Insurance platform** for **Ansel Health**, a U.S.-based company.

MULTI-STATE & MULTI CARRIER SUPPORT

The platform adapts to different regulations and insurance providers.

FULLY INTEGRATED WEB & MOBILE SOLUTIONS

Web portals connected to a robust backend and Salesforce integration.

COMPLETE INSURANCE LIFECYCLE MANAGEMENT

From quoting and policy issuance to employee enrollment, employer management, and broker portals.

CUSTOM BRANDING PER CARRIER

Different user experiences tailored to individual insurance providers.

SCALABLE & SECURE ARCHITECTURE

Built for growth, compliance, and high availability.

THIS PROJECT DEMOSTRATES

Ability to build complex, highly integrated platforms that streamline business operations while delivering a

Why Choose **EPWERY** ?

20+ years of experience

We deeply understand software engineering trade-offs

Scalable & Secure Architectures

Built for long-term success

Expert Cloud & DevOps Solutions

AWS, Azure, Kubernetes, Terraform

CTO-Level Guidance

Strategic technology decisions, not just development

Let's Build Your **Next-Gen Web & Mobile Solution**

We help companies architect and build scalable, high-performance applications that stand the test of time.

Let's talk
